

Versatility

Practical

Walters Buildings

At Walters Buildings, our building designs and structures are very versatile, and our gambrel series is no exception. We will design and construct your gambrel building to suit your unique specifications and desires. For over 50 years our course has been the same: honest family values, with an understanding of our customers' needs.

Quality

Our customers appreciate and admire the long-term aesthetic value that these buildings offer. For a free on-site consultation and a complete explanation of the aesthetic and functional benefits of the gambrel design, call your Walters Buildings representative at 1-800-558-7800, today!

While gambrel style buildings have many practical uses, their truss design is very unique when compared to conventional buildings. The gambrel roof system is available in three types of truss designs.

Ernie and Ginnie Kalb with Former WI Governor and Secretary of Health and Human Services, Tommy Thompson, Owners of the replica Wisconsin Dairy Barn.

Privileged

Walters Buildings has been very privileged to have been called upon by the Wisconsin Arts Board and the Sesquicentennial Commission to help celebrate Wisconsin's 150th birthday at the Folklife Festival in Washington, D.C. and Wisconsin.

Walters Buildings has helped fulfill the Wisconsin Sesquicentennial Commission's goal of supporting projects that will provide a lasting legacy. In all, we designed and constructed three buildings for the celebration; one for the Folklife Festival on the National Mall in Washington, D.C., another for the Wisconsin Folklife Festival at James Madison Park in Madison, Wisconsin, and the final one at Wisconsin Farm Progress Days in Menomonie, Wisconsin.

As a corporate sponsor of Wisconsin's Sesquicentennial, we helped to make the entire year a celebration. The celebration will not end with the year, though ... the gambrel style replica dairy barn we designed and built is an icon Wisconsin can celebrate for years to come.

Walters Buildings helped celebrate Wisconsin's Sesquicentennial.
